C.W

MATHS

II. Write the following amount using dot.

a) 4 rupees and 67 paise = ₹ 4.67

b) 9 rupees and 50 paise = ₹ 9.50

c) 5 rupees and 34 paise = ₹ 5.34

d) 17 rupees and 97 paise = ₹ 17.97

e) 86 rupees and 40 paise = ₹ 86.40

III. Addition (134pg)

a) ₹ 56.70 + ₹ 34.10

₹	P
① 56	70
+ 34	10
<hr/>	
90	80
<hr/>	

b) ₹ 438.00 + ₹ 100.56

₹	P
438	00
+ 100	56
<hr/>	
538	56
<hr/>	

22.10.21

c) ₹ 123.67 + ₹ 90.20

₹	P
① 123	67
+ 090	20
<hr/>	<hr/>
213	87

d) ₹ 145.60 + ₹ 75.50

₹	P
① ① ① 145	60
+ 075	50
<hr/>	<hr/>
221	10

2. How much does the following represent? Write the following amounts in ₹ and paise.

a) ₹ 6.45 = 6 rupees and 45 paise

b) ₹ 87.30 = 87 rupees and 30 paise

c) ₹ 45.10 = 45 rupees and 10 paise.

d) ₹ 13.22 = 13 rupees and 22 paise

e) ₹ 10.10 = 10 rupees and 10 paise

Adding rupees and paise

Let us say Priya has ₹ 15.65 and Shruti has ₹ 10.30. How can we find out how much money did they have in all? By adding.

Let us see how.

	₹	P
	15	65
+	10	30
	25	95

First, write the rupee value in the ₹ column and the paise value in the P column.

We must always first add the paise values, that is, $65 + 30 = 95$

Then add the rupee values, that is, $15 + 10 = 25$

So, both of them together have ₹ 25.95.

Maths Tip

Never add paise and rupee with each other.
