Answer the following questions :

Que 1: What is a globe?

Ans 1: A globe is a model of the Earth.

Que 2: Why do sailors use a compass?

Ans 2 : Sailors use a compass to find their way in the huge and deep oceans.

Que 3 : Why are maps more convenient for students?

Ans 3 : A map is easy to use and portable too. It can be hanged inside the classroom so that every student can see it clearly.

Que 4 : What are continents?

Ans 4 : Large land masses are called continents.

Que 5 : What is the difference between a wall map and an atlas?

Ans 5 : A wall map is a large map designed to be hung upon the walls of a room whereas atlas is a book of maps.

Que 6: What are oceans? Name the largest ocean.

Ans 6: The very large water bodies are called oceans. Pacific Ocean is the largest and the deepest ocean on the Earth.

Que 7 : What is a Compass?

Ans 7 : A Compass is an instrument used to find directions .
