## **Visit To The Mansion**

A1. Jo tossed up a snowball to attract Laurie's attention and make him look out of his window.

A2. Laurie was unwell and alone at home. He invited Jo to come to his house as he was lonely and bored and knew that he would feel better if he had someone to talk to.

A3. Jo brought some blancmange and three tiny kittens for Laurie. He liked the kittens the most.

A4. Laurie could often hear the March sisters talking to each other. Sometimes, he also saw them sitting around the table with their mother. That is how he knew all of them.

A5. Mr. Laurence thought that people who did not know Laurie would feel disturbed so he did not allow Laurie to visit their neighbours.

A6. Laurie went to meet the doctor who had to check. She was happy to be surrounded by the innumerable books and was looking at the portraits with great curiosity and interest.
